

Clark Forklift

Clark Forklift Forklift Training - Presently, there are no less than 350,000 Clark forklifts performing globally, and upwards of 250,000 in service in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 distinctive makes of lift trucks, with parts covering more than 120,000 specialized components for all of its automated equipment. Your local Clark Dealer is your total source for availability of all your parts requirements offered by Clark Totalift.

Clark's extraordinary Parts Distribution Centers are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Motivated to provide the highest level of value and service to our clients, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations worldwide, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, revolutionizing safety features such as the worker restraint system. This exceptional dedication to safety is at this time a customary feature on every forklift.

Clark's recurrent mission to boast the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first forklift manufacturer across the globe to be certified with the globally accepted quality standard ISO 9001 for every one of their production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any environmental limitations, thus placing them in a dominant market position.

Lean Manufacturing

Clark has preferred the very economical and advantageous system of "Lean Production" for its assembly plants and application of resources. This structure was established to acknowledge the most efficient approaches of production facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, similarly focuses on quality of product and services and production efficiencies.

Engine Design

By working in concert, Clark's product suppliers and engineers communicate towards improving product proficiency while minimizing expenses. The new value engineering program combines innovative product improvement and delivers improved consumer support and service within the industry.
